# OZ0020

This ozone sensor is designed to measure dissolved ozone. It requires very little maintenance once it has been setup. It is small and easy to use.

## Technical specifications

<b>Model</b>	OZ0020
<b>Power consumption</b>	
Nominal	min. 12 V (max. 50?) 15mA
Range	max. 30 V (50...900?) 4-20 mA
<b>Pressure</b>	10 mWS, 1 bar
<b>Temperature</b>	>0 °C... <50 °C
<b>Flow rate</b>	30 l/h

## Advantages

- Small and easy to use
- Measures dissolved ozone
- 4-20 mA
